### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Duke Taylor on 7 June 2005.

The application has been amended as follows:

The last paragraph of claim 1 has been amended as follows:

"each tooth converges towards the axis in a longitudinal direction going from the head shaft towards the screw nut shaft, and which tooth has a generally triangular shape defined by a side for connection to the screw nut shaft and by two free sides, said free sides forming cutting edges and come together to form a point, such that **each tooth forming the generally triangular shape is in a different plane and comes** together **to** define a point symmetrical with respect to the axis, projecting longitudinally on the screw nut shaft in said longitudinal direction."

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to suggest a wall anchor having the drilling tip disclosed.

US-3,437,004 to Pacharis discloses two triangular teeth "converging" and/or "coming together" in a single plane stemming from a screw nut shaft; however, fails to present triangular teeth in different planes.

Art Unit: 3677

US-4,696,423 to Ryan discloses converging teeth that do not have only three cutting edge sides. Further, Ryan does not disclose an internal screw thread.

FR2640704 to Anquetin fails to show the teeth converging in different planes so as to form a point.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Sharp whose telephone number is (571) 272-7074. The examiner can normally be reached on 5:30 am - 4:00 pm Mon-Thurs..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J.J. Swann can be reached on (571) 272-7075. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
